Re: Company Recommendation

To whom it may concern:

This letter will serve as a testimonial and recommendation for Peter Pivovar and Pivovar Contracting, LLC.

I have used Peter and his company many times on a multitude of Projects over a period of twenty years. Peter's company and employees consistently exhibit the professional work ethic and knowledge of their trade that I use as a "bench mark" now for other contractors to emulate.

I have enjoyed working with him, not only because I need a company of this caliber to complete the very detailed type of installations required on my homes, but I know the finished work is properly done and at a fair price. This always makes my job easier!

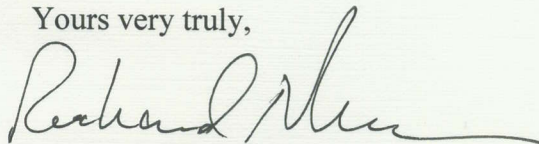

Both Peter and his employees interact very well with clients, as well as, other vendors and contractors. They have a professional demeanor and respect others property.

Due to this high level of competence, I have never had any warranty or performance issues with customers and/or Homeowners!

I would highly recommend Pivovar Contracting for any type of landscaping or Excavating project.

Should there be any further questions, please contact me at address below.

Yours very truly,

A handwritten signature in black ink, appearing to read "Richard Norris".
